

This architectural lifestyle home will have you inspired every time you pull up to your driveway. Symmetry, scale, and a light colourway with a dark slate tile roof give this home a timeless, grand feel. Inside, you walk into a large foyer with large internal double glass doors and a handy built-in mud-nook. There's also a large scullery, a private second lounge, an optional private office separate from all other rooms and a master set for views overlooking your sanctuary.

Floor Area: 261m²
